Estate and Tax planning

Skilled planning of our clients' affairs ensures that their estates are divided as they wish. We act on behalf of Executors in all aspects of the administration of an estate. Our advice can reduce the impact of tax and in particular provide Inheritance Tax savings for your beneficiaries.

Wills & Lasting Powers of Attorneys

Often people don't consider what might happen in the future if they are unable to manage their affairs, or the effect their death would have upon family and loved ones. Our dedicated team can provide peace of mind by making sure that you have made sensible provision through a legally valid and carefully drafted Will and Lasting Power of Attorney.

The best way to ensure that your funds, property and personal belongings will be distributed according to your wishes after your death is to prepare a Will. Every adult should make a Will and review it regularly, particularly if their circumstances change. Marriage, the birth of a child, moving home or getting divorced will affect an existing Will, and in some cases render it invalid.

Creation and managements of trusts

If assets are held by one set of people (the trustees) on behalf of others (the beneficiaries), a trust usually exists. Trusts often need careful handling, an intimate knowledge of the law and detailed tax management. A Trust may be the best way of protecting the interests of children or others unable to manage their own affairs.

Our team can advise on the creation and management of all kinds of trusts. We aim to give a user-friendly trouble-free service, at the same time providing the best possible results for all concerned.
